More information about Christ Church Spitalfields

The venue is a breathtaking masterpiece designed by Sir Nicholas Hawksmoor. It is a celebrated historic building, a living church and a truly inspiring venue for private and corporate entertaining and events. Saved from dereliction and fully restored through £10m of generous financial support from local and national sources, Christ Church stands as one of Britain's finest examples of baroque architecture.

Centrally located just minutes from Liverpool Street station, the magnificently restored Grade 1 building offers flexible and versatile spaces for concerts, exhibitions, weddings, receptions, dinners and more. Its size, location and unique beauty means that it is also regularly used for fashion shows, filming, photo shoots and product launches. All profits from venue hire are reinvested in the ongoing care of this wonderful landmark.
